12 Financial Risk Management - Objectives and Policies

The Company has a well- managed risk management framework, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as liquidity risk, market risk, credit risk and foreign currency risk) that may arise as a consequence of its business operations as well as its investing and financing activities.

The company has not started any operations and is in its preliminary stage. In such circumstances, liquidity risk does not exist.

1) Liquidity Risk

Liquidity risk is the risk that the Company will encounter due to difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

The company has not started any operations and is in its preliminary stage. In such circumstances, liquidity risk does not exist.

2) Market Risk

As the Company is debt-free, the exposure to interest rate risk from the perspective of Financial Liabilities is null.

13 Capital Management

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value.

The Company's financial strategy aims to support its strategic priorities and provide adequate capital to its businesses for growth and creation of sustainable stakeholder value. The Company aims at maintaining a strong capital base largely towards supporting the future growth of its businesses as a going concern.
