Dear Sir/ Ma'am,

Sub : Newspaper publication of Financial Results

Ref : Regulation 30 and 47 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Pursuant to Regulation 30 and 47 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed the extract of newspaper publications of the unaudited standalone and consolidated financial results of the Company for the quarter ended June 30, 2025, approved by the Board of Directors at its meeting held on August 04, 2025 and published in English language in The Hindu Business Line newspaper (All India Editions) and in Malayalam language in Chandrika newspaper (Kochi Edition) today, i.e, on August 05, 2025.

The same is being made available on the website of the Company at <https://www.kitexgarments.com/>

This is for your information and records.

Yours faithfully,

For **Kitex Garments Limited**

Dayana Joseph
Company Secretary & Compliance Officer

Enclosure : As above

QUICKLY.

Narayana Hrudayalaya Q1 PAT dips 2.3% to ₹196 cr

Bengaluru: Narayana Hrudayalaya Ltd reported a 2.3 per cent year-on-year (y-o-y) decline in profit after tax (PAT) to ₹196 crore for the quarter that ended June 2025, even as consolidated revenue rose 15.4 per cent to ₹1,507.3 crore. Group CFO Sandhya J attributed the decline to the company's continued investments in its integrated care business. "Our India hospital business has delivered healthy margin growth," she said. **OUR BUREAU**

DLF Q1 consolidated net up 19% to ₹766 crore

New Delhi: Real estate major DLF Ltd saw a 19 per cent y-o-y increase in net profit to ₹766 crore for the April-June period of the fiscal. Consolidated net profit in the year-ago period was ₹646 crore. Consolidated revenue stood at ₹2,981 crore, while EBITDA stood at ₹628 crore. New sales bookings for the first quarter stood at ₹11,425 crore, up 78 per cent y-o-y, the company said in a note to bourses. **OUR BUREAU**

'Chalk out plan to segregate individual, business income in personal I-T data'

SEEKING INFO. House panel irked with I-T dept saying return forms are not framed to collect details head-wise

Shishir Sinha
New Delhi

A parliamentary standing committee has expressed strong dissatisfaction with the Income Tax Department's refusal to provide segregated data for business income and individual income under personal income tax. The committee has reiterated its demand for a detailed action plan, including specific milestones and timelines, to bifurcate this crucial tax data.

The issue stems from the current classification wherein the personal income tax (PIT) encompasses not only individual earnings but also a significant portion of non-corporate business income, estimated around ₹1.5 lakh crore.

LARGER PICTURE

The committee believes this commingling of data distorts the true picture of income

patterns and hinders effective policy formulation.

In its earlier report, the committee had highlighted concerns raised from various quarters about income tax collections surpassing corporation tax, arguing that this might not accurately reflect the economic reality.

"During the deliberations with the department, it emerged that PIT also includes about ₹1.5 lakh crore of business (non-corporate) income apart from individual income. Concerns have been raised that the collection of personal income tax 5 (PIT) has surpassed corporation tax, as PIT may not accurately reflect the true picture. Ideally, there should be separate data for business income and individual income for better analysis and understanding of income patterns. This would also help in formulating targeted tax policies, identifying areas where tax evasion might be occurring, and addressing the peculiar needs and challenges of individuals and businesses separately," the committee had said.

FOR CLARITY. Earlier, the committee had highlighted concerns raised from various quarters over personal income tax collections surpassing corporation tax. **ISTOCKPHOTO**

dress the peculiar needs and challenges of individuals and businesses separately," the committee had said.

'NOT FEASIBLE'

However, the Ministry of Finance (Department of Revenue), in its action-taken reply, maintained that direct taxes are broadly classified into corporate income tax (CIT) for companies and PIT for other entities like indi-

viduals, HUFs, firms, among others. While acknowledging that taxpayers file different ITR forms (ITR-1, ITR-2 for individuals with no business income; ITR-3, ITR-4 for individuals with business income; and ITR-5 for other non-corporate entities), the Ministry stated that "head-wise segregation of income-tax (business and profession, capital gain, salary, house property, other

sources) is not feasible as income tax return forms are not structured to collect tax details head-wise."

"The committee finds the reply of the Ministry regarding the disaggregation of income data to be less than satisfactory, as it does not adequately address the fundamental intent behind the recommendation," stated the committee.

"It is essential to leverage available digital systems and structured data for generating more meaningful classifications. Given that all income tax data is now computerised, the committee believes that there exists significant scope to analyse and generate reports that reflect a comprehensive picture of income sources. The committee expects the Ministry to furnish a detailed action plan, including specific milestones and a timeline for implementation in the action taken statement," the committee said.

Aurobindo Pharma's Q1 net dips 10.2% at ₹824 cr

Our Bureau
Hyderabad

Aurobindo Pharma's consolidated net profit declined 10.2 per cent to ₹824 crore in the first quarter that ended June 30, compared to ₹918 crore in the year-ago period.

Revenue of the Hyderabad-based drugmaker, however, increased 4 per cent to ₹7,868 crore (₹7,567 crore) driven by business growth in Europe and other markets. Revenue from the US declined by 4 per cent year-on-year — or 44.3 per cent of consolidated revenue on account of significant reduction in lenalidomide sales.

"Our European business maintained strong growth momentum and our core US business showed resilience despite temporary challenges from destocking and seasonal dynamics. Our disciplined execution, operational initiatives and recent US acquisition strengthens our commercial footprint and accelerates growth potential," said Vice-Chairman and MD K Nithyananda Reddy on Monday.

INTERIM DIVIDEND

The Board of Directors approved an interim dividend of ₹4 per equity share of ₹1 each on the equity share capital of the company.

Akzo Nobel net down 21% to ₹91 cr on soft demand

Our Bureau
New Delhi

Akzo Nobel India reported a 21 per cent year-on-year (y-o-y) dip in standalone net profit at ₹91 crore for the April to June quarter, as against ₹115 crore in the year-ago period.

Revenue slid 4 per cent y-o-y to ₹995 crore (₹1,036 crore). The EBIT from operations stood at ₹116.2 crore, down by 21 per cent.

According to Rajiv Rajgopal, CMD, Akzo Nobel India, in Q1 of FY26, while the B2B business continued its

growth trajectory, retail was subdued due to tepid consumer demand and heightened competition.

"Despite margin pressure, we sustained double-digit profitability and maintained investments in growth initiatives," he said.

Akzo Nobel India was acquired by JSW Group for about ₹9,000 crore in June. Amongst the top four paintmakers in India and owner of the Dulux brand, Akzo has trailed larger rivals that include Asian Paints, Berger Paints and Kansai Nerolac.

The company declared a one-time special interim dividend of ₹156 per share.

Cement prices hold firm despite monsoon; companies mull hikes

Abhishek Law
New Delhi

The early onset of the monsoon has pushed average cement prices up by 6 per cent year-on-year (y-o-y) pan India in July to ₹374-375/bag (50 kg). Prices remained flat-tish, down 0.5 per cent on a month-on-month (m-o-m) basis.

Cement makers, banking on a pick-up in demand post the monsoon and higher pet coke prices, could eye a ₹10-20 hike per bag.

Despite a low base, industry saw a muted y-o-y growth impacted by heavy rain. Demand declined in the Central and Eastern regions while the South fared better, market participants told *businessline*.

Industry demand likely grew in low to mid-single digits y-o-y in July, despite a fa-

SOMETHING CONCRETE. Cement makers, banking on a pick up in demand post the monsoon and higher pet coke prices, could eye a ₹10-20 price hike per bag. **REUTERS**

vourable base, as rain dampened construction activity across several regions, JM Financial said in a report.

PET COKE PRICES

Demand declined y-o-y in the Central and Eastern regions, while the Southern region outperformed.

On a two-year CAGR

basis, pan-India cement demand growth is likely to be in low single digits y-o-y.

On the pet coke price movement, the market intelligence firm pointed out that spot international pet coke prices are 3 per cent higher than the Q1 FY26 average with US pet coke spot CIF (cost insurance freight) and landed price at Indian ports

The industry saw a muted year-on-year growth impacted by heavy rain. Demand declined in the Central and Eastern regions, while the South fared better, said market participants

clocking \$109/tonne and \$123/t respectively. This is a 15-week high, largely driven by rising freight rates.

"We expect sustainable volume growth of 6-7 per cent over the medium term, driven by continued government thrust on infrastructure and housing, along with improving demand from both rural and urban mar-

kets," the report stated, adding that spot prices are estimated to be 1 per cent lower than the average price seen in Q1 FY26.

Industry demand growth was at 4 per cent in Q1 FY26.

PRICING STABILITY

In their post-result investor calls, cement companies have already expressed the hope of prices holding strong or remaining stable despite the early onset of monsoon.

For instance, Puneet Dalmia acknowledged that that the pace of cement demand did slow down, but there was a "very healthy improvement in prices across our key operating regions."

He added, "However, even with the early onset of monsoon, the spot prices of cement are holding up and are almost at similar level to the Q1 average cement prices."

Atul Daga, CFO of UltraT-

ech Cement Ltd, India's largest cement-maker, said prices "are favourably poised in spite of heavy monsoon".

Referring to price hikes, he said, the South and the East gained followed by the North and the West (price hikes between 2 and 2.5 per cent for Q1).

"I would say East continues to rise (prices in July). And we've seen increases in other markets, except North. [In] North and West, we have not seen any increases because they are already very well priced. Other markets are seeing very small increases," Daga mentioned during the call.

In its report, JM Financial said, regionally prices fell 1-2 per cent in the West and Southern markets on a m-o-m basis, held steady in the North and East, and rose 2 per cent in the Central region on a m-o-m basis.

'JSW Cement lacks the financial muscle to compete with larger peers for buys'

Our Bureau
Mumbai

JSW Cement is eyeing a 10 per cent share of the domestic cement market in the medium to long term, but the growth to get there will largely be organic as the company does not have the 'aukaat' (status or where-withal) to compete with its larger peers in the sector, Managing Director Parth Jindal said.

The organic route to growth was a more prudent strategy as it could do it at a 40 per cent lower cost compared to industry standards, he explained. While it was the build rather than buy strategy it was pursuing, it would still be evaluating acquisitions when they come up, he added.

Part of the \$23 billion JSW Group, the cement manufacturer is expanding grinding capacity to 42 million tonnes per annum from 21 mtpa now and clinker capacity to 13 mtpa from 6.4 mtpa now. On the way to its long-term goal, it is looking to get to 60 mtpa grinding capacity that would give it a fighting share of 7-8 per cent. Much of the expansion is coming up in South, Central and North India.

The cement sector is going through a period of consolidation with major players such as UltraTech and Adani Cement making strategic and sizable acquisitions to maintain their dominant market position.

Jindal said that after it lost its bid to acquire Holcim's India assets to the Adani Group, "we have studied all the assets that have been available." The cement sec-

Parth Jindal, Managing Director, JSW Cement

tor was dominated by large well-entrenched players with strong balance sheets and low debt. "If they want to acquire anything they can out-muscle JSW Cement easily. Right now we don't have the aukaat, I would say, to challenge them in any acquisition," said Jindal.

The prices for the acquisitions and the benchmarks were being set by the industry leaders and that "makes our organic story much more appealing, value-accretive story than any acquisition," he added.

MORE CAPACITY

The company is looking at putting in more capacity in the North, Central and North-Eastern parts of India rather than the South and East where it was already crowded, with limited scope for pricing power.

JSW Cement's ₹3,600 crore IPO is opening this Thursday at a price band of ₹139-147 per share.

Of the ₹1,600-crore fresh issue, ₹800 is being used to part finance the cost of its new cement unit at Nagaur and ₹520 crore to repay debt.

Bharti Airtel on 'cloud' nine with Xtelify

S Ronendra Singh
New Delhi

Xtelify, a fully-owned subsidiary of Bharti Airtel housing all of Airtel's digital assets and capabilities, on Monday launched a sovereign, telco-grade cloud platform — Airtel Cloud.

Tailored to handle 140 crore transactions per minute for Airtel's own use in India, this sovereign cloud platform is now being extended to meet the ever-evolving needs of businesses, stated the company.

Hosted on next-gen sustainable data centres, with Gen-AI based provisioning, and managed by 300 certified cloud experts, Airtel Cloud offers Infrastructure as a Service (IaaS), Product as a Service (PaaS) and advanced connectivity, and guarantees secure migration, effortless scaling, lower costs and no vendor lock-ins, it said.

ONE FOR THE WORLD

Xtelify also launched an AI-powered software platform that will help telcos all around the world rid themselves of underlying complexity, improve customer experience, lower churn and raise average revenue per user (ARPU).

"We have signed on partnerships with Singtel, Globe Telecom and Airtel Africa," said Gopal Vittal, Vice Chairman and MD, Bharti Airtel.

With Singtel, Xtelify will deploy an enterprise-grade, plug-and-play transformative platform — 'Xtelify Work'. With Globe Telecom, Xtelify will deploy 'Xtelify Serve' in the Philippines.

With Airtel Africa, Xtelify will provide its software platforms, which includes Data Engine, Work and IQ.
