Dear Sir/ Madam,

Sub :- Newspaper Notice in respect of transfer of equity shares of the Company to Investor Education and Protection Fund (IEPF)**Ref :- Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby enclose copies of the newspaper notice advertised for the attention of shareholders of the Company in respect of transfer of equity shares of the Company to Investor Education and Protection Fund, in The Hindu Businessline (English) and Chandrika (Malayalam) on May 21, 2025 in accordance with the requirements of Section 124(6) of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 as amended from time to time.

This is for your information. Kindly take the same on your records.

Thanking you,

For **Kitex Garments Limited****Dayana Joseph**

Company Secretary & Compliance Officer

Gas-based plants to get two weeks notice to plan generation schedule

BACK UP PLAN. Power Ministry's directive comes in the wake of rising summer power demand

Rishi Ranjan Kala
New Delhi

As summer temperatures start soaring, the Power Ministry has issued directions to gas-based power plants (GBS) to include a 14-day advance notice for the number of days they are required to generate electricity in a week.

The Ministry issued directions to GBSs under Section 11 of the Electricity Act, 2003, to ensure maximum generation during peak summer months.

ELECTRICITY DEMAND

"India's electricity demand is witnessing a sustained increase, primarily driven by economic growth and further accentuated during periods of elevated temperatures and peak demand. Also, the India Meteorological Department has predicted above normal maximum temperatures over most parts of the country during the hot weather season (till June 2025)," the Ministry said.

According to the directions issued by the Ministry, Grid India will inform GBSs

about the expected high demand and stress days in advance so that Gencos can arrange for natural gas as required.

It will be based on a monthly assessment of power demand.

"Grid India shall notify to the GBSs the expected number of days they are required to generate during a week, at least 14 days in advance.

"The GBSs notified and scheduled by Grid India on D-1 basis shall be guaranteed for dispatch at a minimum of 50 per cent capacity round-the-clock during the designated high-demand period," it added.

Gas-based plants will first offer their power to the power purchase agreement (PPA) holders according to the terms and conditions. In cases where a GBS has PPAs with multiple discoms, if one of the discoms fails to schedule power as per its PPA, the unutilised power will first be offered to other PPA holders.

If the power is not scheduled by one of the PPA holders, any other discom may schedule such capacity. If no discom schedules the power, the GBS shall offer such power in the market.

READY TO GO. Gas-based plants will first offer their power to the power purchase agreement holders SIVA SARAVANAN S

"Any surplus capacity shall be made available to Grid India to provide grid support and dispatch would be as per real time grid requirement," the Ministry said.

TARIFFS

On tariffs, the Ministry said that GBSs holding PPAs with discoms shall offer their capacity at the Energy Charge Rate (ECR) determined by

the appropriate commission. GBSs not tied to PPAs must offer their capacity on the basis of the benchmark ECR determined by a committee headed by the Chairperson of the Central Electricity Authority, unless there is a mutually agreed price.

The committee's responsibility shall be to ensure that the benchmark rates for procured power cover all prudent costs incurred by

GBSs, including natural gas price, transportation costs, boil-off charges, LC charges, customs duties, insurance, re-gasification charges and VAT/local taxes. The benchmark rates shall be reviewed every 15 days, taking into consideration the change in the price of natural gas and transport costs.

The committee may also make recommendations for the effective implementation of these directions, the Ministry said.

"GBSs shall offer the power in the power exchanges/other market segments or for dispatch by Grid India for grid support at a rate not more than 120 per cent of the ECR plus intrastate transmission charges as applicable," it added.

In the case of GBSs with PPAs, the realisation above the ECR shall first go to meet the fixed costs. The liability for payment of fixed costs, to the extent not realised from sale in the market or dispatch for grid support, shall remain with the PPA holders according to the PPA.

If GBSs are scheduled for grid support, they shall be compensated at the offer price.

MR Srinivasan, renowned nuclear scientist, passes away

M Ramesh
Chennai

MR Srinivasan (1930-2025)

Around the time the India-US civil nuclear agreement was being hammered out, this writer was witness to an unusual incident, at a meeting organised by the Triplicane Cultural Academy, Chennai, on the agreement.

Two tall individuals, both highly accomplished in their fields, got into a heated personal exchange on the dais, in full view of the audience. One was the celebrated bureaucrat, BS Raghavan, the other was MR Srinivasan, former Chairman, Atomic Energy Commission. The two had never met before.

OBITUARY.

Raghavan was completely against the proposed agreement with the US, fearing "swarms of inspectors" from the US nosing around India's nuclear power plants. Srinivasan, the principal speaker of the evening, on the other hand, was fully in favour of the agreement.

As Raghavan was speaking, Srinivasan fidgeted uneasily and smiled, as though saying, "Oh, this man does not understand the nuclear deal", but as Raghavan went on and on, Srinivasan got visibly angry and told the speaker to stop, and not to try to hijack the proceedings. Raghavan told Srinivasan that he was 80 and "standing next to God" and had no desire to hog the limelight and continued with his speech.

When Raghavan finished his speech and took his seat, Srinivasan gave him a friendly smile, shook hands with him and said, "We like to spar, don't we?"

A TRUE PATRIOT

This incident gives a glimpse into the mind of Malur Ramasamy Srinivasan (and indeed of Bahukutumbi Srinivasa Raghavan) who breathed his last this morning, at the ripe age of 95. (Raghavan passed away last year.)

Srinivasan, who was as af-

Nilkanth Vyas, another former Chairman of AEC, observes that Srinivasan contributed immensely to India's nuclear energy programme in its formative years, working alongside the legendary nuclear scientist, Dr Homi Bhabha.

In 1974, Srinivasan was appointed as Director, Power Projects Engineering Division, Department of Atomic Energy; he successfully lobbied for converting the division into Nuclear Power Board, which in 1987, became the Nuclear Power Corporation of India Ltd, with Srinivasan as its Founder-Chairman. Vyas told *businessline* today Srinivasan was involved in the thinking behind India and Russia for setting up nuclear power plants in India — the 2x1000 MW Kudankulam Nuclear Power Plant is a result of that thinking.

Srinivasan is survived by his wife Geetha and their daughter, Sharada. Srinivasan, a recipient of several awards and honours, was recognised for his services by the government of India, which gave him the Padma Vibhushan award, the country's second highest civilian award, in 2015.

In a post on X, Prime Minister Narendra Modi said: "Deeply saddened by the passing of Dr MR Srinivasan, a stalwart of India's nuclear energy programme. His instrumental role in developing critical nuclear infrastructure has been foundational to our being self-reliant in the energy sector."

"He is remembered for his inspiring leadership of the Atomic Energy Commission. India will always be grateful to him for advancing scientific progress and mentoring many young scientists," the Prime Minister said.

Eminent astrophysicist Jayant Narlikar dies at 87

Radheshyam Jadhav
Pune

Jayant Narlikar (1938-2025)

All his life, Jayant Narlikar waged a quiet yet unyielding war — a war to defend science from the creeping shadows of superstition, to uphold reason in a world teetering towards irrationality. The eminent astrophysicist, celebrated science writer and torch-bearer of rational thought stood as a sentinel, guarding the borders between truth and pseudoscience, between enlightenment and obscurantism, between humanity and authoritarianism.

OBITUARY.

When he breathed his last in Pune on Tuesday, at the age of 87, it was not just the passing of a scientist — it was the silencing of a conscience. For many of his students, admirers and fellow seekers of knowledge, his departure felt tragically mistimed. At a time when society grapples with the tension between critical inquiry and unquestioning belief, his voice — measured, fearless, and rooted in logic — was perhaps more vital than ever.

His family confirmed that he passed away peacefully in his sleep. He is survived by his three daughters.

Born on July 19, 1938, in Kolhapur, Maharashtra, Jayant Vishnu Narlikar was

destined to live a life steeped in the pursuit of knowledge. He was raised on the intellectually vibrant campus of Banaras Hindu University, where his father Vishnu Vasudev Narlikar served as Professor and Head of the Mathematics Department.

Narlikar earned his BSc from BHU in 1957. The next chapter of his life unfolded in the hallowed halls of Cambridge University, where he would ascend to rarefied academic heights.

He became a Wrangler, a Tyson Medallist in the Mathematical Tripos, and recipient of the prestigious Smith's Prize (1962) and Adams Prize (1967).

By the time he completed his PhD in 1963, under the mentorship of the legendary Sir Fred Hoyle, Narlikar had already begun shaping his own cosmological worldview — one that would challenge some of the most entrenched scientific doctrines of his time. Staying on at Cambridge as a Fellow of King's

College and a founding member of the Institute of Theoretical Astronomy, Narlikar worked closely with Hoyle to develop alternative cosmological models that questioned the dominant big bang theory.

In 1972, Narlikar made the significant decision to return to India, joining the Tata Institute of Fundamental Research. There, he nurtured and expanded the Theoretical Astrophysics Group, elevating it to global recognition. His return marked not a retreat from international science, but an audacious move to build India's own centres of excellence in astrophysics. In 1988, he was invited by the University Grants Commission to establish the Inter-University Centre for Astronomy and Astrophysics in Pune. As its founding director until 2003, he transformed it into a world-class institution for research and teaching in astronomy.

SCIENCE WRITER

Narlikar was a tireless science communicator. Through his popular science books, television programmes, newspaper columns, and even science fiction stories, he reached young readers and curious minds across India. His ability to explain complex phenomena with clarity and wit earned him the UNESCO Kalinga Award in 1996 for

popularising science.

Equally fascinating was his work in space microbiology. Beginning in 1999, he led a pioneering multi-institutional initiative that sent balloons 41 kilometres into the stratosphere to collect air samples.

The 2001 and 2005 missions retrieved living cells and bacteria from these extreme altitudes, raising profound questions about the origins of life on Earth. Could life itself have extraterrestrial beginnings? In pursuing such bold scientific inquiries, Narlikar showed

that imagination was not the enemy of science, but its essential ally.

RECOGNITIONS

For his towering contributions, the accolades followed: the Padma Bhushan in 1965 at just 26 years of age, the Padma Vibhushan in 2004, and Maharashtra's highest civilian honour, the Maharashtra Bhushan, in 2011. In 2014, his autobiography, written in Marathi, was awarded the Sahitya Akademi Prize, reflecting the literary grace with which he chronicled a life in science.

NOTICE TO SHAREHOLDERS

[w.r.t. transfer of equity shares of the Company to Investor Education and Protection Fund (IEPF)]

Shareholders are hereby informed that pursuant to the provisions of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("the Rules") as amended, the final dividend declared for the FY 2017-18, which remained unclaimed for a period of seven years will be credited to the Investor Education and Protection Fund (IEPF) within a period of 30 days after the due date, i.e. September 01, 2025. The corresponding shares on which final dividend was unclaimed for seven consecutive years starting from 2017-18 will also be transferred as per the procedure set out in the Rules.

The Company will not transfer such shares to the IEPF where there is a specific order of court/tribunal restraining any transfer of such shares or where the shares are hypothecated/pledged under the Depositories Act, 1996. In compliance to the rules, the Company has communicated individually to the concerned shareholder and the details of such shares liable to be transferred to IEPF are also available on our website www.kitexgarments.com under "Investor Relations" section.

The shareholders are requested to claim the final dividend declared for the FY 2017-18 and onwards before the same is transferred to IEPF. The concerned shareholder(s), holding share(s) in physical form may please note that the shares are liable to be transferred to the IEPF account after issuing duplicate share certificate or letter of confirmation for the purpose in favour of the IEPF Authority as per the rules and upon issue of such duplicate share certificate or letter of confirmation(s), the original share certificate(s) which stand registered in their name will be deemed to have been cancelled and non-negotiable. In case of shares held in demat form and liable to be transferred to IEPF, the company shall inform the depository by way of corporate action for transfer to the demat account of the IEPF authority.

Please note that no claim shall lie against the Company in respect of unclaimed dividend amount and shares transferred to IEPF. Shareholders may claim the dividend and corresponding shares transferred to IEPF including all benefits accruing on such shares, if any, from IEPF authorities after following the procedure prescribed in the Rules.

In case the Company does not receive any communication from the concerned shareholder(s) by July 31, 2025, the Company shall transfer the unclaimed dividends to IEPF Account. The corresponding shares on which dividend is unclaimed for seven consecutive years or more shall also be transferred without any further notice.

For any queries on the above matter, shareholders are requested to contact the Company's Registrar and Transfer Agent, i.e. Ms. Nirmala V, Assistant Manager, Investor Services Cell, M/s. Cameo Corporate Services Limited, Subramanian Building, 5th Floor, No. 1, Club House Road, Chennai-600 002, Tel: 044-40020741, E-mail: investor@cameoindia.com

IRDAI slaps ₹1-cr penalty on Acko General Insurance

Our Bureau
Hyderabad

The Insurance Regulatory and Development Authority of India (IRDAI) has imposed a penalty of ₹1 crore on Acko General Insurance.

The penalty was imposed by the regulator for violating the provisions of regulations on outsourcing activities as well as norms on payment of commission or remuneration or reward to insurance agents and insurance intermediaries.

"The order should be placed before the board of the insurer in the upcoming board meeting, and the insurer shall provide a copy of the minutes of the discussion," the IRDAI said in its order.

Acko General was also directed to submit an action-taken report within 90 days from the date of the issue of the order.
